

Leaders create the cultural climate that others work within, and the culture impacts people's attitudes, morale, and performance.

This interactive workshop helps leaders understand the core responsibility they have for creating, influencing, nurturing, and strengthening leadership culture.

There's a reason the great Peter Drucker famously once said, "Culture eats strategy for breakfast." This workshop provides leaders with insights, tools, and practical tips that they can immediately use to foster a culture of accountability and performance.

Understanding and Leading CULTURE

Why Attend?

- Understanding the impact of culture on performance and discipline.
- Learning how values drive and perpetuate culture.
- How to identify a predominant culture.
- Five different "types" of cultures, and how to assess which culture type your organization is.
- A leader's role in creating, recreating, and sometimes dismantling culture.
